SYM NAVAL MULTI-PURPOSE VESSELS

-  TECHNOLOGY
-  CUSTOMIZATION
-  MANEUVERABILITY
-  RELIABILITY

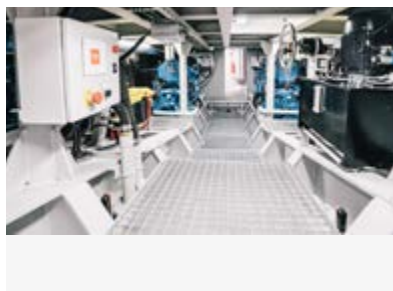

ENGINE ROOM:

Designed as a spacious work area, providing the crew with efficient access for the maintenance of propulsion equipment.

NAVIGATION BRIDGE:

Offers 360° visibility, a critical factor for safe and precise maneuvering.

Its compact design is integrated into the vessel's superstructure to prevent potential impacts with assisted ships, thus minimizing risk and damage.
